

HIV can affect anyone.
It's better
to *know* >

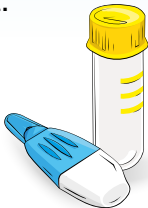

sexual health matters

How can I get tested for HIV?

Testing for HIV is free and confidential in all our clinics. Alternatively, you can request an easy-to-use postal kit to test at home.

No matter the result, we are here to provide care and support, and to offer ongoing treatment.

Care, support, and treatment for living with HIV is free on the NHS.

What are my next steps?

To learn more about HIV testing, prevention, and care and to find out how to:

- request an HIV test
- access HIV prevention options (PrEP & PEPSE)
- receive care and treatment if you're living with HIV

Ask your GP or visit bSHaW (book on 03003032880 or scan QR code for the website: sexualhealthbucks.nhs.uk)

Scan to test!
